FOR IMMEDIATE RELEASE

Future Systems Solutions Launches Casper 6.0 Tech Edition™ Disk Backup and Upgrade Software for Computer Technicians, System Integrators, and IT Departments

Boasts Speeds Up To 50X Faster Than Previous Version; Now Supports Microsoft® Windows 7

Indianapolis, IN – August 4, 2010 - Future Systems Solutions, Inc. (www.fssdev.com) announces Casper 6.0 Tech Edition, a new version of its highly acclaimed hard disk upgrade and disk backup utility. Designed especially for computer technicians, system integrators, and IT department use, Casper 6.0 Tech Edition makes it easy to perform hard disk upgrades, managed backups, and sealed disk deployment. Casper 6.0 Tech Edition offers significant features and benefits for its users, such as:

- Fast, easy hard disk upgrades on desktop PCs and laptops.
- Creation of a complete, immediately-bootable backup replacement for a failed or corrupted hard disk.
- Simplified cloning of hard disks for deployment to new computer systems. When used in combination with Microsoft's Sysprep utility, hard disk images can be sealed and deployed via direct disk-to-disk cloning.

New features include:

- **Enhanced for Microsoft Windows 7** -- provides enhanced support for all versions of Windows 7.

- **SmartClone™ Plus** -- enhanced SmartClone technology with speeds up to 50X faster than previous versions.

- **Solid State Drive (SSD) and LDS Support** -- increases the life expectancy and enhances the performance of solid state and long data sector drives.

- **USB Boot Capability** -- creates a fully bootable copy of a Windows system drive that can boot and run directly from an external USB drive. *(Requires a computer with BIOS support for booting from USB hard disk type devices)*

- **SmartAlert™ Notifications** -- notifies you automatically via email when a copy has been completed.

- **Advanced Power Management** -- automatically suspends, hibernates, or powers-off the computer after completing a copy.

- **New Runtime Controls** -- allows you to quickly change power management and notification options after a copy is underway.

- **Usability Enhancements** -- larger icons, friendlier wizards, and accessibility improvements make copying drives easier than ever.

Other Enhancements:
- Additional OEM partition support
- CD boot support based on WinPE 3.0
- New options
- and more...

"Casper 6.0 Tech Edition continues our dedication to providing users with a dependable, leading-edge hard disk upgrade, managed deployment, and disk backup solution. New features such as full support for Windows 7, solid state and long data sector drives, as well as new SmartAlert notifications, runtime controls, and power management functionality help maintain Casper Tech Edition's position as the solution of choice for IT Professionals requiring a powerful, convenient, and easy-to-use tool for upgrading, managing, or backing up hard disks. In addition, Casper 6.0 Tech Edition's new SmartClone Plus technology, which provides backup speeds up to 50X faster than previous versions, also continues our tradition of providing forward-thinking technology," said a company spokesman. He added, "These vital enhancements make it even easier to rapidly upgrade a hard disk or create and maintain a complete, immediately-bootable, highly-dependable backup replacement or deployable hard disk image for a PC. "

Licensing

Casper 6.0 Tech Edition is economically licensed for commercial use, allowing a single technician to upgrade, deploy, and manage hard disks on any number of computer systems. Supplementary licenses of Casper 6.0 Tech Edition are required only for additional technicians – not additional computers. Enterprise pricing is available upon request.

Compatibility

Casper Tech Edition is compatible with all 32-bit and 64-bit versions of Windows 7, Windows Vista, Windows XP, Windows Server 2008, Windows Server 2003, Windows 2000 Professional, Windows ME, Windows 98SE, Windows 98, and Windows 95. It works with any hard disk recognized by Windows, including all SATA, eSATA, ATA/IDE, SCSI, USB, and Firewire drives – even hardware RAID arrays.

Pricing and Guarantee

Casper 6.0 Tech Edition is available as a download for $799.95 from Future Systems Solutions at www.fssdev.com or by calling 800-272-5457.

Registered owners of Casper 5.0 Tech Edition may upgrade to Casper 6.0 Tech Edition for $239.95. Registered owners of Casper 5.0 Tech Edition purchased after April 30, 2010 may upgrade for FREE.

All of our products come with an unconditional 30-day money back guarantee.
